
Setup 2a Bin

Example 11-1 Setting the initial parameters Automatic bootflash:/m9200-ek9-kickstart-mz.3.0.2a.bin bootflash:/m9200-ek9mz.3.0.2a.bin iso You need to define the boot order. To do this: - Compile the image by loading it into an mz program. - Transfer the result to the boot folder. - Specify the bootflash file name and click the OK button. - Check if the boot is loaded correctly and press the "OK" button. Example 11-2 Setting the initial parameters Automatic bootflash:/m9200-ek9-kickstart-mz.3.0.2a.bin bootflash/
